

Chicago Region Bird Monitors Listserv Bird Conservation Network

beebzz@yahoogroups.com

The purpose of this listserv is to encourage discussion among bird monitors, stewards, land managers, researchers and others interested in conserving bird habitat in the natural areas of the Greater Chicago (Chicago Wilderness) area. Suggested topics include relationships between habitat and bird populations, bird behavior, unusually high or low numbers of species observed, suggestions for more effective monitoring, and questions about protocols. The BCN will also post announcements here. If there is a question that listserv users can't answer, we'll send it out to someone who will know the answer.

To subscribe:

1. Send a message to beebzz-subscribe@yahoogroups.com
2. In the subject field, type "Subscribe beebzz"
3. In the message, give your name, your email address, and your role or reason for interest in bird monitoring.
4. Click "Send"

To post a message:

1. Send an email to beebzz@yahoogroups.com
2. In the subject field, indicate the subject of your post.
3. Type your message.
4. Sign your name and position (e.g. Monitor, Helm Woods, Kane Co; Wildlife Ecologist, DuPage FPD)
5. Click "Send"

Please limit discussions to matters concerning bird monitoring and natural areas management in the Greater Chicago region. Events, workshops and conferences concerning local bird conservation may be posted on the listserv. Stay on topic, do not include advertising of any sort, and avoid endorsing candidates or lobbying for bills. There is no control before a message is sent to the group other than your good judgment. Therefore we expect subscribers to be respectful of this as a tool for sharing information.

To unsubscribe:

1. Send a message to beebzz-unsubscribe@yahoogroups.com
2. Click "Send"
